| SUPPLEMENTARY INFORMATION | | | |

Issued at NMC on: 10.00UTC NOVEMBER 21, 2018 BY FORECASTER: J.SAMIJO

Note:

1. Positive and negative values are indicated by the prefix “PS” (plus) and “MS” (minus) respectively.
2. When a single numerical value of an element is given in a forecast, it is to be interpreted as representing the most probable mean of a range of values which the element may assume during the period of forecast.

ABBREVIATIONS: SKC – 0 oktas, FEW – 1 to 2 oktas, SCT – 3 to 4 oktas, BKN – 5 to 7 oktas, OVC – 8 oktas, LZR – Layered, LOC – Locally, ISOL – Isolated, OCNL – Occasional, FRQ – Frequent.
